Regulations.

The Regulations are given separately to all competitors and therein are indicated the basis under which La Carrera Panamericana is competed, including all the events related with it.

It's an obligation for the competitors to instruct their support, service or repair personnel in respect to all the points related to such personnel and their vehicles, as in the event of contravention, the competitors will be penalized as prevented for each case on the regulations, developing in some situations to the disqualification from the event.

Support vehicles must watch closely the following points that are listed only informatively, do not substitute the Regulations nor cover all the situations which may cause a penalization to a competitor because of his support crew.

• Throughout the entire event the traffic laws must be strictly observed, specially those of the cities and towns crossed by the event.

• If it comes to the knowledge of the officers, that service vehicles are competing between them, the competition cars that they support will be sanctioned according to the rulebook.

• Repairs are not to be done out of those areas defined as permitted for it.

• A competing car can not be towed, pushed or transported on another vehicle, except on the situations foreseen in the regulations.

• It is forbidden to deliberately block the passage of competing cars or to prevent them from overtaking

• It is also forbidden to behave in an unsporting manner with other competitors, services or officials.

• All support vehicles must be registered as service vehicles and bear the official decals with the number of the car they are servicing, at the back and at the front doors.

• In the special stages the service vehicles must circulate before the pace car or after the chase car.

• When a special stage is concluded, under no circumstances the service vehicles at control "A" can overtake the chase car, except when the driver of this car expressly authorizes the service to do so.

• Those support vehicles that could have entered a special stage before the closing of the road must be parked in absolutely safe places, out of off-road trajectory and where they do not obstruct or confuse the competitors. At the end of the special stage the vehicle is not to be moved until after the chase car and all the tail contingent has passed by.

Following is a transcription of some paragraphs of the Rule Book, which are related with the service vehicles, to facilitate to the competitors and its service team the compliance of the rules which norm the participation of such vehicles.

Entries and requirement

Requirements:

The entry application forms are required to comply with the following to be accepted:

• The service vehicle must have, at least, with a third party insurance valid during the entire event.

Traffic laws - Repairs

Throughout the entire event, the crews and its service vehicles must strictly observe the traffic laws, especially of the cities and towns crossed by the event. Any crew or service vehicle which does not comply with these traffic laws is subject to penalties up to the sole judgement of the Steward of the Meeting, from a minimum of 30 seconds to the exclusion of the event, depending on the nature of the fault.

In the case of an infringement to the traffic laws committed by a crew or service participating in the event, the police having noted the infringement must inform the offender there off in the same way as of normal road, street or avenue users.

In this case, the police can even retain the documents of the offender or to arrest him and take him before the correspondent Authorities.

If an official of the event notes a crew or service in infringement the traffic laws, he must notify the Clerk of the Course or if the police decide not to stop the driver in the wrong, but they ask the Organiser to apply reprimands, the penalties laid out above are applied, subject to the following:

- 1. That the notification of the infringement is delivered to the Organizing Committee through the official channels and in writing before the posting of the provisional results of the day.
- 2. That the statements are sufficiently detailed for the identification of the offending driver and the facts are established beyond all doubts, as well as the place and time of the offence.

Service or support

vehicles Registration

and insurance

For service, support or repairs purposes, the service vehicles must be registered (at no extra charge) and must reserve space in both of their front doors and in the rear to identify them officially. Only the service vehicles registered and identified have access to the official service areas. If a service vehicle is not registered and identified as "Servicio" and bearing the number of the car it is servicing, the correspondent crew is penalized with 1 minute (60 points).

It is mandatory for the service vehicles to have a general liability insurance policy (to cover at least third parties), valid for the duration of the entire event. A copy of the policy must be handed to the organizers, in order to register and identify the service vehicle during administrative checks. If the service vehicle does not have the valid insurance policy, the entrant has not the right to start and the crew is excluded of the event and the entry fee will not be returned.

Circulation of the service vehicles

The service vehicles must circulate before the pace cars or after the chase car and all the tail contingent (official and late competing vehicles).

Any service vehicle, with or without official identification, circulating between the competitors while the rally is running, will cause the disqualification of the leg of the competing car(s) that they are assisting. If the service vehicle overtakes the chase car without the authorization of the driver of the chase car, will cause the disqualification of the leg. 2

During special stages

It is strictly forbidden for the support or service vehicles to circulate during the special stages (speed stages) meanwhile they are competing. Those support or service vehicles that could have entered a special stage before the closing of the road must be parked following the instructions of the official pace cars and/or in absolutely safe places, out of off-road trajectory and where they do not obstruct or do not confuse the competitors. At the end of the special stage the service or support vehicle is not to bemoved until after the chase car and all the tail contingent has passed by. Contravention of this paragraph will take to the exclusion of the crew from the whole event.

Penalties

If the support or service vehicles do not comply with the above indicated rules, the correspondent crews which they are servicing are penalised to the sole judgement of the Steward of the Meeting, from a time penalisation to the exclusion of the event, depending on the nature of the fault. The exclusion of the event is automatic if the service or support vehicle is circulating in any special stage while this is competing, and if they overtake the chase car without authorisation of the driver of the chase car the disqualification of the leg is pronounced.

Fuel

It is mandatory to load fuel at gas stations or service areas along the route. It is strictly forbidden to load fuel elsewhere, under pain of disqualification of the leg where the fault is detected.

The transportation of fuel is strictly forbidden during the event, both in the competing cars or in the service vehicles, under pain of disqualification of the leg where the fault is detected.

In the case of using aviation gas, its transportation to the gas stations foreseen by the competitors to refuel along the route, must be done in advance to avoid the transportation in the competing cars or service vehicles during the event.

Likewise, the transportation of fuel to the service areas must be done once the leg has finished or in anticipation to avoid its transportation in the competing cars or service vehicles during the event.

Parc fermé

Rules for the parc fermé

The rules for the "parc fermé" which must be observed under pain of exclusion of the leg, are:

a) While the vehicles are subject to the "parc fermé" rules, any repair or refuelling or any other intervention to the cars are strictly forbidden.

As soon as they have parked their car in the "parc fermé" at the end of the event, the competitors shall leave the "parc fermé" and no member of the crew or its service is allowed to re-enter it. When the time for lodging protests has elapsed, the crews can move their vehicles, except those protested, the six first places of each category and those cars selected by the Steward of the Meeting, the Clerk of the Course or the Director of the race of the event.

The protested vehicles, the six first places of each category and those selected, must remain at the "parc fermé" and the competitors and their service can only enter when the Steward of the Meeting request them to do so and to make the interventions indicated by him. These vehicles will be subjected to the final control, in accordance with this Rule Book.

Distance: 296 km. Approximate time: 4 h. 10' (from the highway beginning)

Exit Veracruz following signs to México, Puebla and Córdoba CUOTA. Follow on highway Veracruz - Puebla for 202 kilometres, until the kilometre 205. There, take to the exitto Tehuacán and Oaxaca Cuota (km 0).

Seguir por esta autopista hasta el km. 38 en donde se encuentra una caseta de cobro \$ 44.00 (auto), cruzar esta caseta de frente con dirección a "Oaxaca", Continuar por 8 km. hasta el km. 47.5 en dondese encuentra la salida hacia "Huajuapan", salir de la autopista hacia Huajuapan y continuar por esta carretera por 53 kms. Hasta el km. 64.1 aprox. entrada a "Chazumba", el servicio es en la gasolinería lado derecho, zona de servicio.

Service area in gas stations at Chazumba:

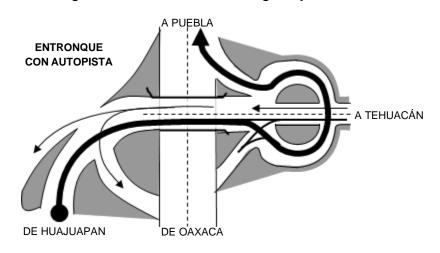

From Service to Cd. De México

Distance: 311 km.

Exit the gas stations return on the same road to TEHUACÁN.

Follow this road until the km 9, which connects with the toll highway Oaxaca - Tehuacan, when you arrive at this point cross the bridge and return to take the highway to Puebla.

Keep on this highway until km 0 (46 kms.), where you get to the toll highway Mexico - Veracruz. Here take to the left to PUEBLA - MEXICO, Slowly, it is a **dangerous curve**.

From here continue along this road to the entrance to the City of Mexico (180 kms.), at the intersection of highways in the city of Puebla (approx. 130 km) take the "Paso Elevado" (\$ 60.00) towards Mexico.

Attention. Arriving in Mexico City, 3 ½ kilometers after km 20, going up the first overpass, you will finda branch on the overpass, which will take you right to "MÉXICO CENTRO POR IGNACIO ZARAGOZA" **Attention:** If you do not take this deviation correctly, it will be very difficult to resume the route.

To the right over the bridge

Once on Calz. Ignacio Zaragoza, keep entire straight for 9 kilometers, before the first traffic light, takethe deviation to the left towards the "Viaduct - Av Insurgentes -. Calz. Tlalpan ". Following the signs to "Toluca and Calz. Tlalpan ". Below the overpass

To the left through underpass:

:

At 700 m. approximately begin traffic lights, continue straight 4 traffic lights.

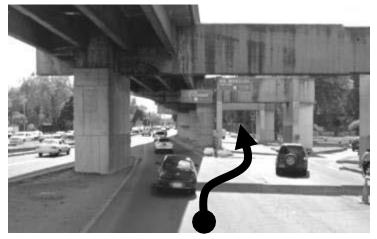

400 m. after the 4th traffic light, continue straight on right lanes "viaduct - Rio de la Piedad", "Morelos - Eje 3".

In front of Viaduct – Eje 3:

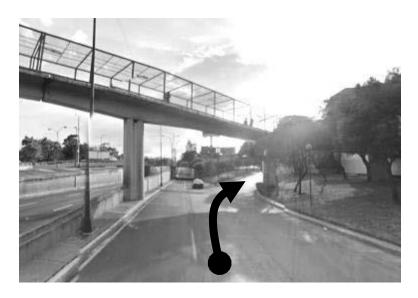

After 300 meters, go to the side road toward "Av Morelos - Eje 3 Sur".

On the side road Morelos – Eje 3:

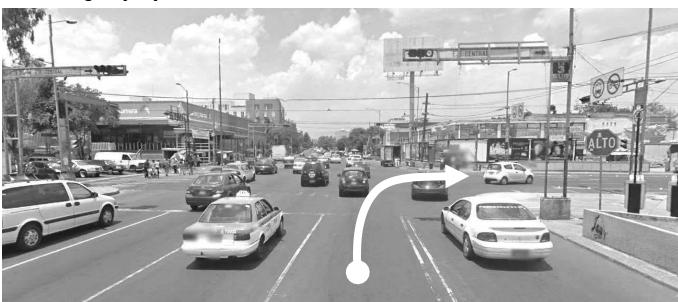

440 m., after take to the right to "Av. Morelos – Eje 3 Sur" ".

To the right to Morelos – Eje 3:

When you are on "Eje 3", continue for 3 km. On this eje until you find a bridge with curves left-right, continue straight ahead for 800 m. (three traffic lights) turn to the right on the fourth traffic light to "Eje Central" to "Bellas Artes" (look at next photo).

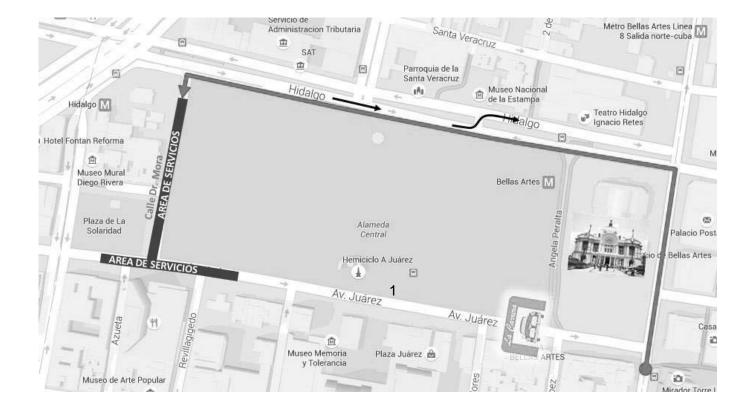

To the right by "Eje Central":

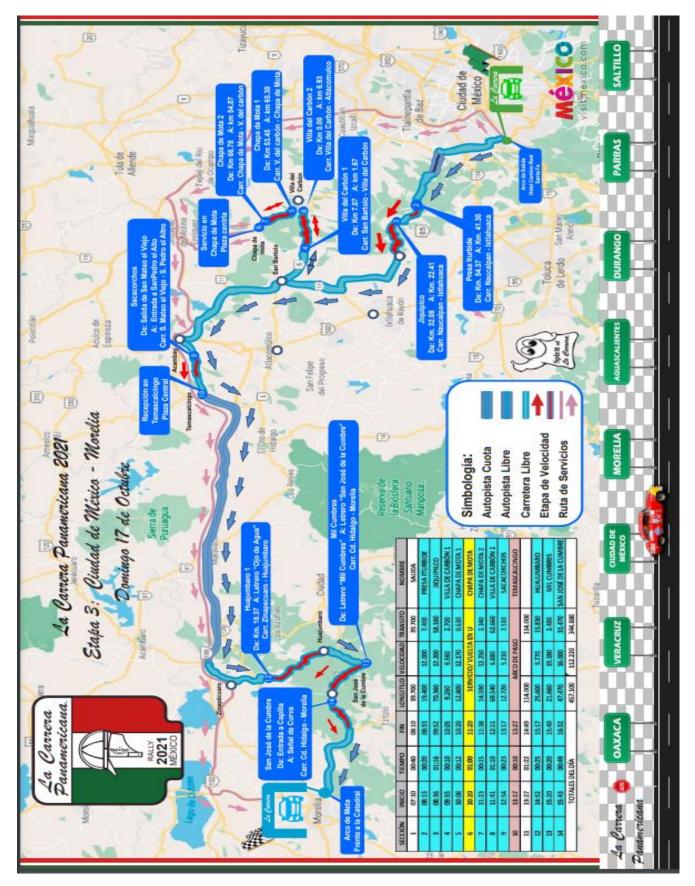

When you are on "Eje Central", continue for 3 km. Along this avenue, until get to "Bellas Artes" in front of a high building "Torre Latinoamericana", (look at the sketch) on this corner "Eje Central" with "Av. Juárez", continue to next avenue "Hidalgo" (end of "Bellas Artes") turn to the left on left, at 180 m. opposites traffic begins, continue on left lane carefully at 350 m. to the left to "Dr. Mora" street, entrance service area.

The service area entrance time is form 15:30 hs. to 20:00 hs., the competitors arrival time to the goal starts at 16:40 hs.

GPS: N 19° 26' 04.05" W 99° 08' 32.44"

MAP STAGE 3 CDMX – MORELIA

The Ultimate Road Race

Etapa 3 / Stage 3 México - Morelia

Service: Chapa de Mota.

Location: Fields of Escuela Primaria "Gustavo Baz".

GPS: N 19°48'55.3" W 99°31'32.4"

Duration: 01:15 minutes

Arrival time: The first car is expected at 11:09'

Route to Ciudad de México al Servicios.

Distance: 110 Km. Approximate time: 2 h.

Leave the service area along Av. Juárez, to the left to Lázaro Cárdenas Central Axis (Next to Palacio de Bellas Artes), and continue along the Eje Central for 10,750 km. until you climb a bridge where you will find a fork of streets over the bridge, continue on the left to "Querétaro".

Attention: Máximum 1.9 kms. After get off the bridge, take the right lanes.

Continue on the right lanes for 200 m. and before the bridge turn right to "Querétaro - Av. Toluca"

350 m then enter to central lanes, continue along this avenue (Jesús Reyes Heroles).

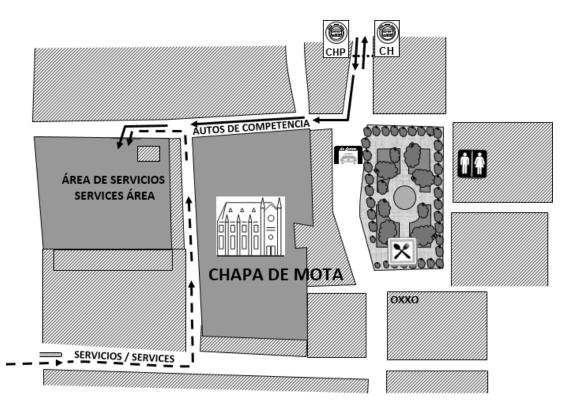

At 5.15 kms. continue on the right lanes, 350 m. then you will connect with the "Periférico Norte", "Autopista México – Querétaro".

At the junction, continue along this highway until km. 83, where you will leave the highway towards "Jilotepec - Atlacomulco". (In the km. 43 there is a toll booth \$ 87.00, car).

Continue on this road 7.7 kms. to get to Jilotepec, at this point continue along the road following the indications to "Atlacomulco - Toluca", when leaving the overpass continue along this road, at 4.4 km. There is a junction where you will take to the left to "Chapa de Mota".

Continue along this road all the way until you reach "Chapa de Mota".

When you arrive at "Chapa de Mota", continue straight on avenue with a ridge, at the end of the ridge, continue until the first street I. s. where you will turn to the left, one block ahead, again to the left, 30 m. there is the entrance to the Services Area. (School fields).

Route to the Service at Morelia.

Distance: 144 kilometers.

Leave the service turn to the left to the street "Agustín de Iturbide", continue on this street all the way to the intersection with Temascalcingo, at this junction turn to the left, at 1.7 km. you will reach a junction where you will continue to the right until you leave the Town, at the exit continue along this road for 7.4 km. where you take the side road of the bridge to "Guadalajara - Maravatio", at the junction turn to the right to merge with the highway (km 118.5), to merge onto "Atlacomulco - Guadalajara" Highway until Km 225 and take the exit to Morelia. Continue straight following the signs to Morelia

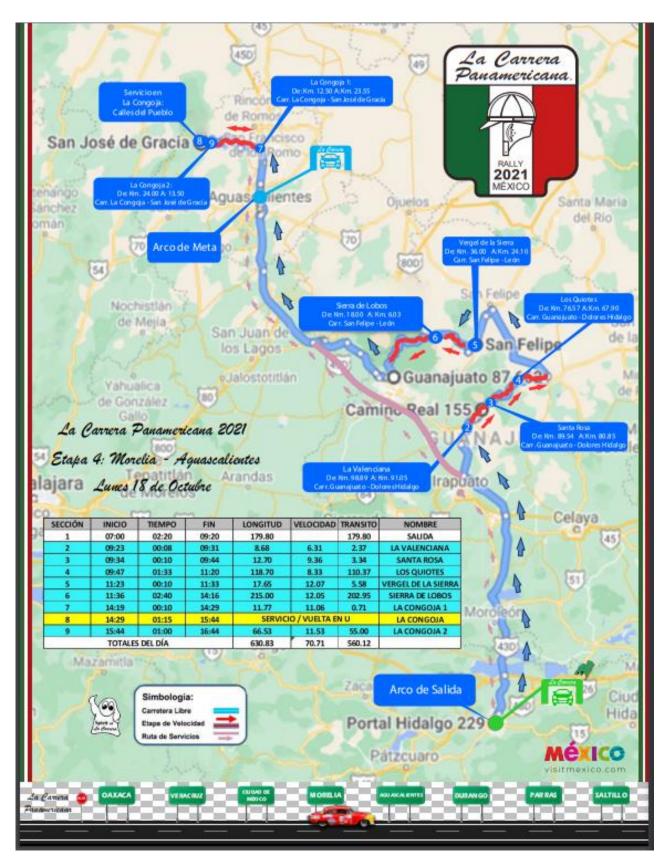

When you reach the city, after passing the second traffic light, take the side road, which leads to the bottom of an overpass, to Peripheral circuit. Here, you must turn to the left to "Cd. Hidalgo".

Route to hotels:

Turn to the left under the overpass to CD HIDALGO, MIL CUMBRES and AV. CAMELINAS (for Peripheral Paseo de la Republica). Take the central lanes and continue straight (2.4 km) to the crossroads (third traffic light) which leads to Patzcuaro, Mil Cumbres and Centro, hotel "Holiday Inn" straight ahead, to other hotels to the right to downtown. (Look at Morelia map)

Hotel Holiday Inn: straight ahead form this junction, on Av. Camelinas for 1,370 m. (3 traffic lights), after PLAZA MORELIA at the 3rd. traffic light, at 400 m is hotel "Holiday Inn" left side.

MAP STAGE 4 MORELIA – AGUASCALIENTES

The Ultimate Road Race

Etapa 4 / Stage 4

Morelia -

Aguascalientes

Etapa 4: Morelia – Aguascalientes

Servicio: La Congoja.

Location: Downtown of La Congoja, Aguascalientes.

GPS: N 22° 09' 53.80" W 102° 33' 15.14"

Duración: 01:15'
